

## Greg Leeder Homes

We selected Greg Leeder Homes based on the quality of the recent homes they had built near our subdividable block in Middleton Beach.

We presented Greg with a list of priorities, ideas and a strict budget for an investment build.

Greg and his draftsman drew up a contemporary, economical and environmentally sensitive design and a style that we hadn't considered previously. It was far more appropriate in keeping with the local beachy homes than our original over budgeted design ideas. A pleasant surprise was the basic price quote inclusions were of a very high standard and we made little or no upgrades to fittings and fixtures.

The entire process from planning to finish of building has been enjoyable and effortless due to the support, friendliness and professionalism of Greg, Kevin, Karina and the entire Greg Leeder team. We were impressed by the quality and enthusiasm of all the tradesmen, and the suppliers he recommended were also exceptional.

We are very proud of the end result – a premium beachside property ready to impress and sell.

Most importantly, the culture of a team comes from the top, and Greg Leeder is a man of honesty and integrity. We now entrust Greg and team to build our next project – a home for us in Middleton Beach.

Clive and Katherine Lamond.
